

## SAGE & GINGER

**C**hanneling the spirit of a landmark boutique hotel lounge, this foyer enchants with its classic yet current vibe that was inspired by a decked-out bar just steps away. Linger with a cocktail or a book is easy to imagine, and cozy vignettes enveloped in a luscious, jewel-toned palette encourage guests to settle in. An elegant Restoration Hardware entry table, centered on an abstract-patterned, hand-knotted Tibetan rug, is a welcome sight, and a wave painting by William Hobbs flows just like the curves of the Asian-inspired console table from Currey & Company beneath it. A blooming flower bud chandelier by John-Richard crowns this gem of a space. —LF
